PROFESSIONAL EXPERIENCE

BARCLAYS

Manhattan, NY

Equities & Derivatives Developer

March 2025- Present

- Built an Interest Rate Swaps bulk booking tool in Angular/TypeScript with a C# API layer, processing 100,000+ trades per submission via parallel execution for operations teams
- Developed Dividend Swaps quick entry and detail pages, migrating core booking workflows from a decommissioned application to a new trading platform
- Modernized 3 full-stack applications from .NET Framework 4 → .NET 8 and Angular 14 → 17, reducing technical debt ahead of system deprecation
- Cut frontend maintenance overhead by implementing shared UI component libraries across the product suite, standardizing design patterns team-wide

GENESIS 10

Remote (USA)

Software Engineer

June 2024- Present

- Completed a competitive Java full-stack training program (top 5% acceptance) covering Java, Spring, Python, data engineering, and frontend development; contracted to Barclays upon completion

BRAINSTATION

Remote (USA)

Software Engineer, Teaching Assistant

Jan 2024- April 2024

- Reviewed and debugged 100+ student projects, providing constructive feedback that contributed to a 30% average increase in grades
- Built demo applications in React, Node.js, Express, and MySQL to teach full-stack concepts to a class of 27

PROJECTS

READING GUILD

React Native, Expo, TypeScript, Spring Boot, PostgreSQL, AWS S3

- Designed and shipped a full-stack social reading platform for book clubs with real-time chat, push notifications, and club discovery; published to iOS App Store and Google Play

AI-POWERED VEHICLE MAINTENANCE APP

React Native, Chart.js, Google AI

- Built an AI-powered vehicle maintenance tracker with data visualizations in a 24-hour Google hackathon as part of a 4-engineer team and placed 2nd

EDUCATION

BRAINSTATION

Miami, FL

Diploma in Software Engineering

2023-2023

- Selected as a Teaching Assistant from a class of 27; placed 1st in 2 hackathons

FLORIDA ATLANTIC UNIVERSITY

Boca Raton, FL

Bachelor's in Health Science

2017-2021

- Graduated Summa Cum Laude · GPA: 3.9/4.0 · Multiple merit-based scholarships

SKILLS

Angular, TypeScript, C#, .NET 8, JavaScript, Java, SpringBoot, Maven, JUnit, ReactJS, NodeJS, Express, MongoDB, PostgreSQL, MySQL, HTML, CSS, GitLab, GitHub, Rest APIs, OAuth, CI/CD, Authentication, Agile Development
